

CUSTOM-BILT METALS®

August 6, 2007

Dear Daniel Roofing:

Thank you for attending Custom Bilt Metals' Standing Seam Roofing Seminar. I have great confidence that you will use this workshop as a foundation, followed by years of profitable and enjoyable experiences with Standing Seam metal profiles. You hopefully, have a cohesive comfort level with metal, and have gained the techniques, and insights to go out and include these profiles in your company's product offerings.

I want to re-emphasize by attending this workshop you are entitled to our complimentary technical follow-up program. Please contact me with any questions regarding our roofing installation procedures, or specific architectural design questions. If you are currently bidding, or installing a project and have any questions or concerns feel free to call or e-mail me.

Again congratulations on your course completion.

Best personal regards,

Jeff Johnson
